The Power Of Therapy Dogs

By Darla Morris

My name is Darla Morris. I have been a member of TDI for a few years. I wanted to share an experience with you of the power of therapy dogs.

(continued on Page 5)

Greetings!

Finally, our renewal process for 2019 is for the most part concluded. Thank you, for your work and dedication! Now we can look forward to our work which lies ahead for 2019.

My *wish list* and a *little* reminder what TDI is all about:

Wish List

- Evaluators, please take the leadership roll you have been given and help us to educate our new registrants!!
- Chapters, directors and members: Chapters are not social clubs, they are a group of TDI associate members who have banded together for the purpose of visitations and to actively help new associate members how to properly conduct TDI visits!!
- All associate members: Please keep up your requirements to be able to remain TDI dog handler teams. When you receive a notice from TDI 4 weeks prior to the expiration of any of the TDI required health care procedures please make arrangements immediately. **WE HAVE TO DISMISS ALL VOLUNTEERS IF ANY OF THE HEALTH CARE PROCEDURES ARE EXPIRED! That also includes in following all of our rules and regulations you have signed and agreed upon to follow!** We are not a club, we are an organization who: **REGULATES, REGISTERS, PROVIDES** qualified Therapy Dogs with the help of our volunteers wherever they are needed!!

Little Reminder All About TDI

REGULATES:

We have developed and are developing testing procedures and write the rules and regulations to be used in selecting qualified dog handler/teams who would like to volunteer by sharing their dogs with others who are in need of the love and compassion of a qualified Therapy Dog. Qualified means that all of our requirements are met at all times!

Registers:

We register dog/handler teams who have been selected by passing all of our requirements.

Provides:

We provide our partner facilities (signers of the TDI MOU) free of charge qualified registered THERAPY DOG TEAMS, who are our registered TDI volunteers.

Let us all work together to make 2019 a best possible year for TDI!

President

DISASTER STRESS RELIEF DOG (DSRD) TEST

Chester, South Carolina
Test: Saturday April 27, 2019
**Drill: Sunday April 28, 2019*

***All Teams who pass the DSR Test on Saturday, must participate in the Drill on Sunday.**

Dear TDI Associate Member:

We would like to invite you to our DSR Tests we have scheduled at this time. Please see page 4 for an additionally scheduled Test and Drill.

Testing fee: \$50.00 (candidates who fail the test will be refunded)

Please note: Our testing requirements are stringent. It goes without saying the temperament of the dog must be outstanding, and the dog should be able to handle a variety of situations without prior experience.

We evaluate you as well as your dog (including a handler evaluation).

- Your dog must be able to pass all parts of the TDI test.
- You and your dog must be in good physical condition, and be able to walk a distance of one mile.
- You and your dog will be subjected to extreme noise from fire engines, etc.
- Your dog must be able to work and be transported with other dogs (both genders) in close quarters, such as in cars, trolleys, boats, elevators, etc.
- Your dog must be able to work under various conditions, with people crowding the dog and approaching from all sides, and without prior warning or introduction.
- You, the handler, must go through additional training, see below:

The following three courses can be taken online at: <http://training.fema.gov/IS/crslist.asp>
Introduction to the Incident Command System (ICS 100) IS-00100
Introduction for Single Resources and Initial Action Incidents (ICS 200) IS-00200
National Incident Management System (NIMS) an Introduction IS-00700

The following course can be taken online at: <http://learn.nctsn.org/login/signup.php>

My Aunt was diagnosed with Dementia a few years ago. She eventually had to go to a nursing home. My aunt knew I had my golden, Remi and I began to bring him on visits to the nursing home when I would visit my aunt. She would always smile and loved petting him. The other residents loved seeing him and the director began following Remi's Facebook page.

Last April my aunt took a turn for the worse. She became very hard to communicate with. She seldom spoke or smiled, as she once did. On our first visit since her change, I brought Remi in to visit her. Upon seeing Remi my aunt smiled and began to pet him. The director of the nursing home told me that that was the most my aunt had communicated with anyone. The power of a therapy dog breaks through and reaches people on a level we may never understand.

This visit will always hold a special place in my heart. It was Remi's last visit to see my aunt. My aunt passed away two months later.

Thank you TDI for offering this amazing opportunity for my fur baby to be able to help others.

Barkley Has 50 Visits By Nancy Schlup

Barkley had her 50th visit earlier today, and I have paperwork ready to send. Barkley has been visiting in our local hospital's unit for elderly persons with dementia. It has taken awhile to get to 50 visits because until May of this year, I was teaching, and thus, couldn't get her to the hospital early enough in the day for some quality visits, so we were limited to summers. Since retiring (34 years teaching students with

intellectual and developmental disabilities), we've been able to stick to a weekly schedule.

When my Dad was in this same hospital unit at the end of his dementia, I got special permission from the hospital to take Barkley in to visit just Dad because Barkley always did seem to calm him. What I saw Barkley doing with Dad those last 3 weeks was amazing. When he was in bed and got upset, she would dive underneath his hand so that her head was under his hand. He would pet her and calm right down. When he was sitting up, she would sit in my lap, without flinching a muscle, so that he could pet her. As long as he wanted to pet her. She could sit on my lap for 30 minutes without moving. What makes this ironic is that at home she is NOT a lap dog. She won't stay on our laps for more than 15 seconds without wanting down. I began to realize how tuned into Dad she was, and how she clearly knew she had a job to do. That's when I decided to test her for TDI, and she passed with no problem.

As we visit patients now, she continues to be willing to sit on laps as long as patients want to pet her. I see patients light up when she gets to them. I've seen some tears as they remember how much they love dogs or miss theirs. I've seen her trigger conversations about their past dogs.

I've been told by staff that the most they've heard a patient talk, or the happiest they've seen a patient was when Barkley is with them. She has received lots and lots of hugs...some of them hard enough that her eyes get big and she looks at me like "I can't breathe, Mom, but I'm ok!" I think she likes going each week. When I pull her bandanna out and ask if she's ready to go to work, she sits right down to get dressed.

Cocoa The Therapy Dog By Harvey Harlem

As an adult, I have had the pleasure of owning 4 dogs, all pure mutts.

First came Sheba, an adult Doberman Pincher mix. She was amazingly smart. Next came Benji, a Corgi that we got as a puppy from the shelter. He was sweet and smart, good with the kids. He died as a result of a mysterious accident. It was heart breaking for the whole family. Some time passed before we got Bandit, a precocious Border Collie. She lived to 14, and with a heavy heart, I had to put her down. At this point I was single and decided to go pet less.

David, my youngest son, came to live with me for a few months and brought Chief, an adorable Dalmatian. After they left, I felt a void and went on the hunt for another dog. After several weeks of going from shelter to shelter, I got adopted by Cocoa, a Chocolate Lab/German Shorthair Pointer mix. We hit it off immediately. He was about a year and a half old. During our 1st winter together, there was a snow storm. Afterwards, we went into the park next to my house. The kids were sledding and one little girl was lying very still in the snow. I was amazed to see Cocoa make a beeline for her. Before he got to her, she got up. I seemed to be reading his mind that said 'she doesn't need me'.

Sometime later, I read an article about therapy dogs and realized that Cocoa had the instincts the article described. I got him tested and he passed on the 1st try. I was congratulated for a good job of training. I told the examiner that he was never trained by me (being a rescue, he might have been trained by the previous owner).

Most people think that Cocoa wants attention and be petted. My observation is he senses that people feel good to touch him. When we go to hospitals, nursing homes, children's places etc. he knows his job. Of course, the staff can't wait for our visits.

He's an incredible companion and works well with adults and children alike. What a find!

Saying Good Bye

All of us together, whether we know or have known each other personally or not, are and have been part of something which is good, is alive and growing. TDI has been perpetuating itself since the beginnings in 1976 so many are and have been part of this by adding to this "Building". The message of Therapy Dogs has spread. Through the dedication of people with their dogs, we are learning and understanding that there is so much more to be done for the good of all, whether it is for humans or for dogs. By contributing our work with the help of our dogs, all of us in our unique way, have and are making a difference for the good of all Mankind.

Thank you and Good Bye to you who have completed your work here on earth. You have left behind something which has made it worthwhile to have been part of in this world. You will be missed and remembered as having been part of something which is greater than any work of each individual alone!

THE RAINBOW BRIDGE

There is a bridge connecting Heaven and Earth. It is called the Rainbow Bridge because of its many colors. Just this side of the Rainbow Bridge there is a land of meadows, hills, and valleys with lush green grass. When a beloved pet dies, the pet goes to this place. There is always food and water and warm spring weather. The old and frail animals are young again. They play all day with each other. There is only one thing missing. They are not with their special person who loves them on Earth. So, each day they run and play until the day comes when one suddenly stops playing and looks up! The nose twitches! The ears are up! The eyes are staring! And this one suddenly runs from the group! You have been seen, and when you and your special friend meet, you take him or her in your arms and embrace. Your face is kissed again and again and again, and you look once more into the eyes of your trusting pet. Then you cross the Rainbow Bridge together never to be separated.

In Memory . . .

We are saying good-bye to the following TDI dogs. We will always be grateful for the contributions these dogs have made to the lives of others. A very special thank you to their owners for sharing these remarkable creatures with us and for representing TDI so well.

News From The Various States

Arkansas Mission of Mercy ArMOM 2019 April 11–13 Northwest Arkansas Convention Center

In case you're not yet one of our long-time volunteers who have enjoyed serving at this event in the past 12 years, ArMOM is an annual 2-day free dental clinic started by the Arkansas State Dental Association for underserved Arkansans. All services are provided free of charge by a host of volunteers and sponsors. It is very rewarding to see patients' gratefulness after receiving services! The Therapy Dogs are a huge hit & need too! We're proud of the large turnout of volunteers at ArMOM every year; ask around and you'll find out why we keep joining in and serving Arkansas together this way!

Go to: www.rsvpbook.com/ArMOM2019Springdale to register as a volunteer. Volunteer Registration is ONLINE only. We need approximately 900 volunteers, including 400+ who are NON-dental/non-medical. Visit arkansasmissionofmercy.org for more information about ArMOM.
